PART # 100713/2267 Printed in Canada

The above aluminum samples are powder coated to represent actual appearance as accurately as possible. Appearance may vary depending on application variables such as film thickness, substrate type, and cure conditions. Other elements such as age, field exposure and lighting conditions may affect color, gloss and how these are perceived and interpreted. Therefore, we cannot guarantee an exact match between these chips and the coating applied at our facility.
